

Hiruni

A heartland for Theravada Buddhist culture among the majority Sinhalese population of the island, Sri Lanka is a country with enormous natural diversity.

One day in November 2012, I was from winter to summer, from China arrived in Sri Lanka. When I was off the plane, I would feel strong hot air whenever I go, but Achintha sir's smiling face make me to this foreign land strangeness reduced.

The beautiful campus, The enthusiasm of teachers and students and the Interactive class. This is my life and study in University Of Colombo. J.B sir, Sandagomi sir, Achintha sir and Upekala miss. These names will always remain in my memory.

Not only Sinhala charm make me fascinated but also Sri Lanka culture natural scenery make me fascinated. Home to the old capital of Anuradhapura, sacred Temple of the Tooth in Kandy, end of the world feeling of Adam's Peak, Sri Lanka is culturally very rich. As a Foreign Student in Sri Lanka you can witness various heat-relieving hill stations, many beautiful beaches, cosmopolitan appeal of Colombo, and unique appeal of Jaffna in the far north.

Studying in abroad is a truly enriching experience. Teachers guide prospective to overcome the difficulties for us. I love Sri Lanka.
